

Risborough & District Model Railway Club

Trustees' meeting 11 October 2024

Trustees present - Paul Wright, Tim Peacock, Roy Norton, Mick Moignard, Richard Neil and James Aitken; also present Rob Thompson (President)

Apologies: Gary Day

Future Club premises update

1. No major developments since the EGM on 1 September. QRS had confirmed that the Winwood Trust had no objections to our plans for the internal works to the Brixton building. However, work on the building had been delayed by the wet weather and was now expected to start in November.

Exhibitions and activities

2. **Haddenham** This had been well attended and had provided a surplus of about £1600 for Club funds. **Risex 2025** Andrew David had taken on the co-ordination role. Some layouts still needed to be booked. **Railex 2025** all on course.

3. **Wheeltapper 2025** Speaker and date to be confirmed but likely Friday 11 April.

4. **New project** – QRS had asked us to help to build an automatic layout in the museum using items bequeathed by a QRS member. Roy will be coordinating.

Aylesbury LNWR

5. Good progress was being made on installing the layout permanently in the museum coach at Quainton. Paul Bambrick had agreed to restore the backscene. BRM magazine (Andy York) had been invited to publish an article on the layout and its new home in the March 2025 edition.

Christmas dinner – Friday 13 December

6. Gary had booked the Harrow at Bishopstone and the menu had been circulated.

CMRA layout register

7. Richard reported that the CMRA had resurrected its register of layouts available for exhibitions. We would register Mellin Parva and Club members would be invited to reply directly to CMRA to register their own exhibition layouts.

AGM 8 November 2024

8. The attached agenda for the AGM was agreed.

New Member

9. Terry Downes was welcomed as a new Associate Member.

Next meeting – Friday 6 December 2024

**Roy Norton
Club Secretary
October 2024**
